Lottery Zone Maps (LOOK FOR YOUR SCHOOL)

Schools With A Program In Lottery

Several CBE schools have limited capacity for new students. This means we may need to hold a lottery to ensure that all students wishing to attend the school have an opportunity to do so. Review the list below to see if the school(s) you are applying to are listed and register before Feb. 10, 2026, at noon (12 PM). If your designated regular program is listed below, review the [overflow schools list](#) to see where students who are unsuccessful in the lottery will be overflowed.

Note | The list below may change between now and Feb. 10, 2026. It's important to register before the cut-off date to secure your spot in a lottery draw; if the school does not need to run one, your place will be guaranteed.

Lottery Zones

Lottery zones are one factor used to establish priority in the lottery process. To review whether you are within or outside the lottery zone, please select your school from the drop-down menu and then select the map file.

How We Prioritize Students For Lottery

Priority levels influence your chance of being offered a place at a lottery school. If unsuccessful in the lottery, students are placed on a callback list in order of priority level.

Priority 1

- Students living within the lottery zone who have a sibling (brother/sister [half or step, not cousins]) that will be attending the same program in the same school; concurrently (occurring or existing simultaneously).

Priority 2

- Students living outside the lottery zone but in the designated area for the school, who will have a sibling in the same program at the same school concurrently; or
- Students living within the lottery zone who do not have a sibling in the school.

Priority 3

- All other students living in the designated attendance area.

Name NOT Drawn in the Lottery

If the student's name was not drawn in the lottery process for an alternative program, they will **attend their designated regular program school.**

If you select more than one alternative program, **each school will notify you** whether you have been accepted.

If you were not accepted into any of the lottery schools, you will attend your designated regular program school.

Registrations received after Lottery

Students registering for **an alternative program** after the lottery draw must register for their **designated regular program school**, as no additional spaces will be available for the next school year.

Wait List

Waitlist for Alternative & Language programs that exist will be dissolved at the end of September, beginning of October.

Call Back List listed below apply to ONLY overflow schools for designated community school, NOT Alternative or Language Programs

CallBack List

A callback list is used for regular program schools that are overcapacity and cannot accommodate all students who live within the school's designated boundary.

The callback list is prioritized according to the draw order established by a lottery. If a school reaches capacity mid-year and must cap enrolment, the callback list is based on priority designation, registration date and time.

If space becomes available throughout the school year, that space will be offered to students on the callback list who are **currently** attending their overflow or regular program school.
